PROFILE SUMMARY

Highly skilled cybersecurity professional with expertise in penetration testing, CTF development, and security operations. demonstrating strong leadership and entrepreneurial skills. Proficient in various cybersecurity tools and techniques, with a track record of developing innovative security solutions and platforms.

EDUCATION

Bachelor's Degree in Cyber Security

Oct 2021 - Feb 2025

Amman Arab University Grade: 3.72 Excellent. [See Credential →](#)

PROFESSIONAL CERTIFICATE

- ❖ **CompTIA PenTest+ ce** [See Credential →](#)
- ❖ **Microsoft Certified Security, Compliance, and Identity (SC-900)** [See Credential →](#)
- ❖ **eJPTv2 (eLearnSecurity Junior Penetration Tester)** [See Credential →](#)
- ❖ **Penetration Testing Practitioner (JODDB)** [See Credential →](#)
- ❖ **Google Cybersecurity Professional** [See Credential →](#)
- ❖ **Microsoft Certified Cybersecurity-Architect (SC-100)** Soon
- ❖ **Certified AppSec Pentesting eXpert (CAPenX)** Soon

PROFESSIONAL EXPERIENCE

Royal Jordanian Airlines – Senior Information Security Analyst

Jul 2025 - Present

- **Security Operations:** Experience in managing security operations centers (SOCs) and incident response teams, as well as familiarity with security information and event management (SIEM) technologies.
- **Cloud Security:** Knowledge of securing cloud environments, including Microsoft Azure, Familiarity with cloud security tools such as, MDE, XDR.
- **Threat and Vulnerability Management:** Ability to identify and assess threats and vulnerabilities and implement appropriate controls to mitigate them. Familiarity with security testing tools such as vulnerability scanners, penetration testing, and security audits.
- **Incident Response:** Understanding of incident response processes and procedures, including incident identification, containment, eradication, and recovery.
- **Compliance:** Knowledge of regulatory compliance requirements, such as GDPR, and PCI DSS.
- **Privileged Access Management:** Implementing Privileged access management solutions with full customization and integration with different platforms.
- **Brand protection:** deploy, configure and manage brand protection technology that include deep/dark web monitoring, supply chain monitoring, public facing assets, vulnerability scan and security posturing.

- Capital Bank of Jordan** – Intern Penetration Testing / Security Operations Mar 2024 - Jun 2024
- Security Assessment: Conducted penetration tests on banking systems and applications to identify vulnerabilities and security weaknesses.
 - Reporting: Prepared detailed reports on findings and recommended security improvements to enhance the bank's overall security posture. [See Credential →](#)
- Green Circle for Cyber Security** – Intern Cybersecurity Technician Feb 2024- Jun 2024
- Technical Support: Provided technical assistance in implementing and maintaining cybersecurity solutions.
 - Security Analysis: Assisted in analyzing security incidents and contributed to the development of mitigation strategies. [See Credential →](#)
- Amman Arab University** – Volunteer President of the IT-Club-Cybersecurity Oct 2021 - Feb 2025
- Penetration Testing Lab Developer.
 - Reverse Engineering Lab Developer.
 - CTF Developer.
 - Call Center Management.
- Hult Prize Amman Arab University** – Volunteer Vice Campus Director Sep 2023 - Feb 2024
- Event Management.
 - Front End Developer.
- IEEE Amman Arab University** – Volunteer Public Relations / IT Team Leader Jun 2024 - Nov 2024
- Event Management.
 - Front End Developer.
- CompTIA** – Freelance Authorized Partner in Jordan and Global Mar 2024 - Present
- Partnership with Amman Arab University
 - Partnership with Jordan University of Science and Technology.
 - Partnership with Applied Science Private University.
 - Partnership with Philadelphia University.
- CyberAliens** – Freelance Penetration Testing / Security Engineer Nov 2023 - Feb 2025
- Leadership: Spearhead the strategic direction and growth of a cybersecurity company specializing in CTF competitions, e-learning systems, and security services.
 - Platform Development: Led the development of CyberAliens Website, a comprehensive platform for hosting CTF competitions and providing cybersecurity services.
 - Innovation: Initiated and oversaw the creation of CyberAliens Pentest-Lab v2, enhancing the company's capabilities in penetration testing and web application security.

TECHNICAL SKILLS

- **Security Tools:** Penetration Testing tools, Vulnerability scanners like VDRs, Network analysis tools.
- **Coding:** Python, Bash scripting, C++, Web development (HTML, CSS, JavaScript), Game Engines (Godot & Unity).
- **Specialties:** Web Application Security, Network Security, CTF Development, OSINT, Cryptanalysis, Malware Analysis, Reverse Engineering, Dark and Deep Web Monitoring, Security Solutions Administrative.
- **Platforms:** Linux, Windows, Cloud environments (Hostinger VPS, Azure, AWS).
- **Security Platforms:** Microsoft Defender XDR and EDR, Teagis MDR, XDR, IDR, NDR and EDR Tenant Administration, Sophos EDR Administration, Cisco Duo Security Administration, F5 Distributed Cloud WAF Administration, Brand Protection Platforms Administration, Log Forwarders, PAM Administration, Splunk Administration.

PROJECTS

- ❖ **CyberAliens Website - Front End Web Development / Hosting** Mar 2023

This cybersecurity establishment provides hosting services for CTF competitions, an e-learning system, and different security services.
- ❖ **CyberAliens CTF Platform - Front End Web Development / Hosting** Aug 2023

A global platform where cybersecurity students can learn, practice and get ranked according to their skills through CTF.
- ❖ **AstroCrypto - Python** Jul 2023

A powerful and versatile tool designed to assist you in both cracking hashed passwords and identifying the hash type used to secure them. This tool provides an all-in-one solution for security professionals and system administrators to manage password-related challenges effectively.
- ❖ **Devastorix - Python** Dec 2023

A Python Script Designed to Automate the Process of Sending Messages Using the Pyautogui Library. The Script Provides a Graphical User Interface (GUI) Built with Tkinter, Allowing Users to Easily Configure and Initiate the Message-Sending Process.
- ❖ **AAU-Hult Prize Portfolio & Registration Form - Front End Web Development / Hosting** Oct 2023

A Website talk about Hult Prize at Amman Arab University.
- ❖ **Flüsterfuchs - Python / Windows API** Dec 2023

A cyberweapon (Malware) keylogger implemented in Python for educational purposes. It captures keyboard input and associates it with the foreground process (Active Window). The graphical user interface (GUI) is built using the Tkinter library for ease of use.
- ❖ **\$V3N0M-Virus - Python** Jan 2023

This Malware s Done by Using 3 Programming Languages. The Core Language of The Virus Is Python

and I Also Used VBScript and CMD-Power-Shell, This Is a Duplicate Virus and It Deletes the Whole Boot Sector by Changing the Physical Drive Value into A 0 So There Will Never Be Windows Bye Windows ;).

- ❖ **IEEE-AAU Website** - Front End Web Development / Hosting Aug 2024
A Website about IEEE Amman Arab University-Branch.
- ❖ **Whisperbot Website** - Front End Web Development / Hosting Feb 2025
A Website about Whisper Discord Music Bot.
- ❖ **Recruiters JO Website** - Front End Web Development / Hosting Jan 2025
A Website about Recruiters JO Company.
- ❖ **Zingo Bank** - Figma, UI/UX, Mobile Application Apr 2025
An UI / UX for Mobile application using Figma.

HONORS & AWARDS

- 🚩 **Certificate of Appreciation first place in Amman Arab University (CyberTalents)**
- 🚩 **Tryhackme Top 1 Rank**
- 🚩 **Coordinating and Managing Aliens-CTFv1, AAU-CTFv1, v2, v3 Events**
- 🚩 **CTF System Administrator LesCTF, TuxCTFv2**
- 🚩 **Certificate of Achievement ICPC 2022, VishwaCTF 2022-2023**
- 🚩 **Certificate of Achievement NCSC Advance Training, Nasa Space Apps Challenge 2024**
- 🚩 **Trainer of the Teams that got First and Second place at SHEHacks 2024**
- 🚩 **Multiple Training Certificates [See Credentials](#) →**
